Field	Soundproofing			
Type	Atmospheric Discharge Silencer			
Price	1k€	10k€	100k€	1M€

BERTSH, a world renowned Austrian company, entrusted dB Vib Engineering with the **design and manufacture of two atmospheric discharge silencers**.

These two silencers are **installed on the boiler** of Gascogne Paper in Mimizan.

DB Vib determined the dimensional parameters of these silencers **by studying the aeraulic** data of the processes in order to be able to guarantee BERTSCH adherence to **the acoustic targets**.
