Place	ANNEYRON - 26 - France			
Sector	AgriFood			
Field	Soundproofing			
Type	Acoustic treatment			
Price	1k€	10k€	100k€	1M€

Following complaints from the neighbourhood KERRY RAVIFRUIT decided to install acoustic treatment to **limit the environmental impact of its site.**

Following the recommendations of an acoustic study, dB Vib Ingénierie **supplied and installed various solutions** such as the fitting of new silencers.

These customised solutions enabled KERRY RAVIFRUIT to greatly reduce its **noise nuisance while respecting the ventilation of the premises concerned.**
