Sector	Pharmaceutical			
Field	Soundproofing			
Type	Acoustic partition			
Price	1k€	10k€	100k€	1M€

SANOFI PASTEUR encountered **work station noise problems** during the use of a scrubber.

Consequently they called on dB Vib Ingénierie to find a solution to limit the **noise impact** of their equipment taking into account the characteristics of the site

dB Vib proposed the supply of a **stainless steel soundproofing partition** mounted on casters to facilitate the opening and closing of the area.

This custom solution produced a reduction in the noise exposure of Sanofi Pasteur employees.
