

VALINOX NUCLEAIRE

Year	2016			
Place	MONTBARD - 21 - France			
Sector	Nuclear Industry			
Field	Air treatment			
Type	Paint booth			
Price	1k€	10k€	100k€	1M€

VALINOX NUCLEAIRE wished install an extraction booth in order to **protect its operators** during liquid penetrant inspection.

DB Vib Ingénierie designed a **custom paint booth** to minimise the exposure of operators to pollutants while **respecting the lighting requirements**.

From **design to installation**, db Vib was able to take into account the constraints of the project to enable VALINOX NUCLEAIRE to **perform their liquid penetrant operations in the best possible conditions**.
